Matt Angelo Santiago

Full Stack Developer | JavaScript, React, Next.js, SQL Server

Cabanatuan City, Philippines | +63 963 614 8843 | mattangelodrs@gmail.com

Professional Summary

Full Stack Developer with 3+ years of experience building and maintaining internal business applications used by 5,000+ employees across nearly 500 branches. Strong in JavaScript, SQL Server, and stored procedure optimization, with a focus on accounting systems and workflow automation.

Technical Skills

Languages: JavaScript, T-SQL, HTML5, CSS3

Frameworks and Libraries: React, Next.js, jQuery, Bootstrap, DataTables, Tailwind CSS, Django REST Framework

Backend: Node.js, Express.js, RESTful APIs

Databases and Tools: SQL Server, PostgreSQL, MongoDB, Git, GitHub, Postman

Professional Experience

Junior Full Stack Developer | Royce Group of Companies | Cabanatuan City | October 2023 – Present

- Enhanced core modules of the Centralized Accounting System (CAS) supporting Accounting, Finance, Treasury, Sales, and Inventory across nearly 500 branches.
- Designed and maintained the Attendance Monitoring System (RAMS) for 5,000+ employees, automating timekeeping, leave requests, and leave balances and eliminating manual HR calculations.
- Built the Branch Data Pipeline (RGGCASH) that ingests daily branch Excel files into SQL Server, with interactive DataTables for cross-branch verification.
- Built print-ready document rendering and bulk Excel export workflows for high-volume transaction records.
- Developed web applications with JavaScript, jQuery, and SQL Server; designed relational schemas and converted legacy paper workflows into web systems.

Projects

Full-Stack Chat Application | MongoDB, Express.js, React, Node.js, Tailwind CSS
MERN-stack chat platform with RESTful APIs, database persistence, and a modular architecture.

Education

Bachelor of Science in Information Technology
Nueva Ecija University of Science and Technology | 2019 – 2023

Languages: Filipino (Native), English (Fluent)
